Terrell & Terrell, CPAs, LLP Offers Sage Accpac Version 5.6 to Clients

Benefits include increased productivity, streamlined operations, and improved visibility.

Dallas, TX – January 22, 2010 – Terrell & Terrell CPAs, LLP, a leading professional services firm, will offer Sage Accpac ERP version 5.6 (<http://www.bterrell.com/sage-accpac-erp/>) to clients and prospective clients. Sage Accpac Version 5.6 provides performance improvements that allow companies to accomplish more with fewer resources, save time and money, and help grow their businesses faster.

Specifically, the latest version of Sage Accpac includes a new business intelligence tool, Sage Accpac Intelligence (<http://www.bterrell.com/sage-accpac-erp/business-intelligence-and-reporting/sage-accpac-intelligence/>), that enables users to adapt successfully to changes in today's market and make better, faster decisions. Through the use of the new tool, users can spend more time focusing on information analysis and interpretation and less time pulling data together. Version 5.6 also enables offline synchronization to SageCRM to help make field sales, marketing, and service personnel more productive and efficient because they can work anytime, anywhere, irrespective of connectivity. Additionally, Bank Services and Inventory Management are greatly improved with this new version of Sage Accpac.

"We are proud to offer the latest version of Sage Accpac to North Texas businesses," said Brian Terrell, CPA and Managing Partner of Terrell & Terrell, CPAs, LLP. "Sage has really done a great job connecting with current Sage Accpac users and VARs to discover what features to include in the new release, and we think our clients will truly benefit from the enhancements that have been made to the product."

Version 5.6 is available to all Sage Accpac clients who are on a current Sage maintenance plan at no charge. Contact Terrell & Terrell for more information about Sage Accpac ERP version 5.6 or to schedule an upgrade.
